

Who are the Careers team and what do we do?

Sandwell Academy offers a full time Careers team to support students, in regards to their next steps once they leave the Academy. Located in the centre of the Academy above the main reception, the team operates an open door policy, allowing students to drop in to speak to a member of team. During the current pandemic, due to zones and year group bubbles, the team are out and about around the Academy meeting students and offering advice and guidance about applying to university, apprenticeships and volunteering opportunities.

Have you seen the Careers Noticeboard in the Restaurant?

Here you will find useful information about events that the Careers Team are organising, what is happening that month and an Alumni Spotlight where we showcase what some of our ex-students have been doing since they have left Sandwell Academy.

Did you know Careers have a section on the Online Curriculum?

The Careers section on the online curriculum has a wealth of useful resources for all year groups, from careers quizzes to how to write a personal statement for a university application. There are sections on UCAS, Apprenticeships, industry sector information, webinars and an A to Z of jobs and careers. There is also a huge area on university information, where you can find links to open days and online course information [for](#) [tw](#)
